Sunday John 1: 1-18. "In Him was
life, and the life was the Light of
men." Jesus came to reveal to us the
Father. Taking to Himself a human
body and soul. He expressed through
them the life of God, in a way we could
understand. He showed us how the
Father would have His human family
live, and so His life became "the light of
men." All who receive Him partake of
the life of God (v. 12) and no longer walk
in darkness but have the "light of life.
Monday, John 1: 19-28. "Behold the
Lamb of God, which taketh away the
sin of the world." Heather religions
promise forgiveness of sin to those who
undertake long pilgrimages or undergo
cruel penance. Yet those who have done
so, if questioned, will tell you sadly that
they have not yet realized any peace.
May we value the Saviour's marvellous
Sacrifice, and proclaim His power to save
to all within our reach.

Tuesday, John 1: 29-42. "He first

Tuesday, John 1: 29-42. "He first findeth his own brother." Are you longing to do something for God, but feel that you have little opportunity? How about those in your home, your brothers and sisters? See that you so live that they can believe on the Saviour and are not hindered because of you. Where there are younger ones, perhaps you could read the Sword and Shield portion with them every day.

Werlnesday, John 1: 43-51. "Phillip.

there are younger ones, perhaps you could read the Sword and Springly you could them every day.

Wednesday, John 1: 43-51. "Philip saith . . . come and see." How much of deep interest is contained in the simple and touching account John here gives of the conversion of Christ's first disciples. They were not attracted by eloquent sermons, but by the personal testimony of their fellows, and by seeing the home-life of the Saviour. Can you say "Come and see" to those who ask of your dwelling-place and your influence there?

Thursday, John 2: 1-12. "Whatsoever He saith unto you, do it." Notice how quickly those whom jesus chose to help Him perform this, His first miracle, obeyed His commands. They did not stop to argue that water was no good where wine was required. So we, in carrying out God's orders, should not draw back under the excuse that we cannot see how the desired end can thus be attained, but should render Him prompt and faithful obedience, trustfully leaving results with Him.

Friday, John 2: 1-3.25. "Take these things hence." How came it that this godless crowd so meekly obeyed this Carpenter from Nazareth? Because the knowledge that they were guity made cowards of them all. Thus one true salvationist, in the power of the Holy Spirit, can courageously face a crowd of godless sinners, for, "He holds no parley with unmanly fears, Where duty bids he confidently seer.

Spirit, can eourageously face a crowd of godless sinners, for, "He holds no parley with unmanly fears, Where duty bids be confidently steers, Facing a thousand dangers at its call, And, trusting God, surmounts them all, "Saturday, John 3: 1-13. "Ye must be born again." We are all by nature spiritually dead. Our hearts are cold and indifferent to the things of God, Just as physical life comes by natural birth, so spiritual life begins when the soul is "born of God." This miracle of the new birth is wrought by the Holdy Spirit in all who receive by faith the Lord Jesus as their personal Saviour from sin (Ch. 1: 12, 13).

On the Matterhorn

A young married couple, just before leaving for their holidays in Switzerland, perused a copy of an Army periodical at the house of a Salvationist relative. A few days later they climbed the famous Matterhorn and stayed the night at a hotel high up on the mountain side. Imagine their surprise when, upon entering the reading room, they discovered on the table a copy of the same issue as that which they had seen in London!

Plan for It

Mark vi. 31.)

Every child of God must plan for the bit of quiet time daily alone with Jesus; with the door shut, the Book onen, the mind alert, the knee bent, the will bent too. If it be resolutely planned for, it can be managed in every life. If not planned for with a bit of red iron in the will, it will surely slip out, and the child will surely slip out, and the child will surely slip out, and the child will surely slip down.

My best days were spent in the Army

Successful Revivals

Successful Revivals

MOST of the great revivals have been filled full of the unaccount-ble and the miraculous. They have often been successful where the means and the garrison were altogether inadequate to the performance of the work, where fath and prayer against a firm and unvielding opposition were the weapons of evangelism. They have been perhaps more largely successful where the accountments of war were provided and a multitude of one mind stood ready-armed to second the campaign. But God does not win His great battles with the heaviest battalions. There may be neither hammer nor axe, nor any tool of iron heard, and the building still be perfected. God puts special seal upon special instrumentalities, and lends to the more aggressive forces in the church the exceptional blessing and power.

Power of Personal Experience
Though an Officer with a long and varied Departmental career to his credit, in the risk of many a struggle to help men win back their manihood, his greatest power has been that of his own personal experiences. He himself has plumbed the deaths, and, years ago, under the mighty regnerating influence of Christ, he found deliverance in a Solvation Army Meeting.

Many men in different parts of the smild thank God that they ever met our Comrade, and heard him say, "That is my story, and you, too, may be saved," and so, with foot and hand on the Army's holder of spiritual and social redemption, they have climbed it rung by rung, and are today not only good citizens in the ordinary sense, but active workers for Christ, monuments to God's redeeming love and mercy.

"No.: "was the repty."

"But how could you help yourself?"

"I would look to God for the power about which you have been speaking."

Then came one of those moments hard to describe—the strong man was broken in the hetter sense, and when the Colone lief the cell the man listed his hand reverently and kissed it.

"Later I saw the Governor," says the Colonel, "and mentioned the incident. He was surprised and ould hardly believe it, for he knew his man. Naturally I pleaded for him to give him another chance. The request was grauted, and once more the all-conquering power of Love was vindicated.

This is not the end of the story. Indeed, it is only the heginning, and this man, and many another who has been interviewed, will continue to be visited by our prison visitation Officers, and have a chance afforded them of making good in the completest sense.

During his inspection in Canada the

chaine anoroed them of making good in the completest sense.

During his inspection in Canada the Colonel visited ten prisons and peni-tentiaries, attended seven police-courts, and conducted six Meetings with prison-

prison a Meeting is held for our Comrades every Monday afternoon, conducted by the prison visitation Officer, who, in addition to this work, is as a rule responsible for the conduct of the Army's Hostels, Metropoles, Aged Men's Homes, and Industrial Stores. This, together with the splendid work they do in connection with the visitation of the police-courts, where they are accorded the fullest liherty, and exercise a wonderful-influence, help to fill every minute of their hours full to overflowing with successful services on behalf of the broken and despairing. And in this work they are greatly encouraged by the help of the Corps, whose Bands and Songster Brigades are permitted to enter the prisons and hold Meetings.

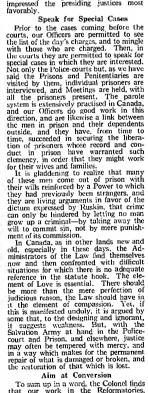

It is not all easy-going work. Much of it entails a good deal of stressful effort. This, for instance, the Colonel proved when he visited Regina. Arriving late on the Saturday, it was, owing to the

tentiaries of Canada, the aggregate attendance of which was upwards of sixtheosand, a further most encouraging fact being that no less than 1,303 mer professed conversion.

The Colonel is impressed with the magnitude of the Army's Police-court and Prison Work in the Dominion, and likewise with the influence exercised by our Social Officers in courts, prisons, and elsewhere. He is impressed also with the privileges and liberties that are accorded them. This, too, after interviews with Governors and Wardens—and he has everywhere been warmly received by the officials mentioned — who have paid generous tribute to the character of the work done by the Army. His interviews with recorders and magistrates, too, have been of the most cordial character, and all concerned have testified to the helpful nature of the work of our Comrades in connection with rice court business. The impressions for good made by our Officers was most marked in colice-courts attended by the Ameliand their pleading on behalf of offenders was most marked in epideand their pleading on behalf of delinquents impressed the presiding justices most favorably.

Aim at Conversion

To sum up in a word, the Colonel finds that our work in the Reformatories, Prisons, and Penitentiaries is satisfactory, and considers that the coming years will see a marked development of that work, which, it should be noted, aims not merely at the reformation of the prisoner, but at his conversion.

at the reformation of the prisoner, but at his conversion.

What man could have appeared more unpromising than a famous bootlegger an Officer met in prison? While in jail he was interviewed several times and, so impressed was he, that he attended all the week-night and Sunday Meetings that he could, consistent with his prison employment. He had charge of the pumphouse, and once, when quite alone, he

This work of prison visitation, it should be understood, is carried on all the time by our Social Officers, whose records of personal interviews. Meetings held, and broken lives mended, is an cpic of apostolic service in the interest of the community. Think of the upwards of two thousand men and lads met on discharge during the year, and of the over five hundred for whom employment was found, of the food and clothing supplied to hundreds of lemilies, and of the various other phases of their work, and it will be realized that the term we employ is not an overstatement of the work done.

In one of the prisons visited by the Colonel, where there is a small Salvation Army Corps consisting of eight Soldiers and four Recruits, two prisoners were enrolled as Salvationists under the Army Flag during the Colonel's visit. At this

Let it be admitted at once that very many of the men who come to us find themselves down and out through their own sin and folly. Some, it is true, are the victims of adverse circumstances and many are to be more pitied than blamed. But the past, apart from its value in showing just what treatment is necessary for the reclamation of the individual, does not concern those who are laboring for the uplifting of the men. It is the future that is the chief concern; a future for which the men must be fitted by rising from the ruins of their manhood to a plane from which they can look the world in the face.

Editorial Notes

Soldiers, Not Sheep

Soldiers, Not Sheep
IN an open letter sent out by the
Episcopal National Commission on
Evangelism there appears the following paragraph:
"For a long time we have allowed recolto think of the Church as ministering chief
to the both time and effort to change that attitude. They must loarn that instead of
meroly wheep to be tended they are primarily
soldiers enlisted for a desperte waffare,
well as clergy,"
This was the perm of the idea which

This applies to the whole body, laymen as well as clergy."

This was the germ of the idea which inspired our Founder and led to the formation of the Salvation Army. What opposition it aroused, especially from complacent church people who wanted to be regarded as sheep to be tended and resented the thought of being pushed out into the trenches to do some real hand to hand fighting with the enemy.

The opposition has largely died down now, however, and only crops up occasionally when someone who has not outgrown the old ideas gets peeved at the Army's aggressive methods.

up occasionally when someone who has not outgrown the old ideas gets peeved at the Army's aggressive methods.

It is surely evidence that the Army's conception of following Christ is more and more permeating the mass of Christendom, when such a statement as quoted above is broadcast throughout the land in preparation for a great evangelical crusade which is to begin next year.

Yet it is no new idea this, that Christians are soldiers and not sheep. It was strongly emphasized by Faul and is written large in the New Testament so that they who run may read. The trouble has been that Christian people have been allowed to think of themselves as sheep, they have been lulled to sleep instead of being aroused to warfare.

General Booth would have none of that sort of thing. He re-discovered, so to speak, the 'dead of soldiership and insisted on his people becoming warriors of the Cross, ever seeking to capture prisoners from the enemy. The result has been that the movement has overspread the earth—a great Army murching with banners, with loud triumphant shout, making hell tremble and Hoaven rejoice.

And now that the tide of publications of the King of kings are catching the itee or soldiership and intended the or common foe, we should move forward with even stronger stride, lealing the world for God.

Friday, January 1st, 1926.—My New
Year is for my God. In my reading this morning these delightful words touched my soul:

Many, O Lord my God. are Thy wonderful works which Thou hast done, and Thy thoughts which Thou hast done, and Thy thoughts which are to us-wards; they cannot be reckoned up in order unto Thee; if I would declare and speak of them, they are more than can be numbered.

Indeed and indeed, it is true—"more than can be numbered!"

Amongst many cheering and heartening messages from Officers I think the one from Kitching (Commissioner) finds a special response in my heart:

My Dear General—This is only to wish you a very good New Year—full of blessings and things to make you glad and as free from sorrow and disappointment as God may see fit to make it.

"If He cut off and shut up, or gather together, then who can hinder Him?
But thou shalt be steadfast and shalt not fear.

But thou shall be account.

I enter upon the Year hoping for myself a continued wareness of the presence of God and believing for wisdom from the Source of all wisdom, and hoping for The Army that it may have a year of the birth—of magnifying the Son of God.

You will do the greatest service to the state if you will raise not so much the roofs of the houses as the souls of the citizens; for it is better for great souls to dwell in small houses than for mean souls to dwell in great houses. Have entered upon the battles and perplexities of the New Year with confidence. But what a strange world is around us! What misgivings and misunderstandings! In striving for something better the people, also foften strive for the wrong thing. A paragraph in one of the religious papers struck me today:

Many Gates to Pass

There are more double gates to go through before the offices of the prison officials can be reached, and still more gates before the actual prison can be entered. And then one is confronted by long vistas of corridors oranching in all directions, entry to which is barred by still more of those great iron gates reaching to the ceiling. The individual ceils in which the prisoners are placed are located in these corridors, three rows of them one upon another, and each door is composed of steel bars and locked by a device which apparently works on the same principle as a combination to a safe. The meaning of the phrase "behind the bars" is thus very forcibly impressed on the visitor. The chances of cutting one's way to liberty through such a network of steel seem very sight indeed, for in addition to the inanimate obstacles there is the human factor to be reekoned with in the shape of ever watchful guards who paired the corridors day and right. Then there is the great outer wall as an additional safeguard, with armed men keeping ceaseless vigil from the watch towers. Truly it might be written over the doors: "Abandon hope (of escape) all ye who enter the in however, if all the men

It would be a truly terrible condi-tion to be in, however, if all the men in such a place had to abandon hope in all other things as well as in that one particular. But fortunately that is not so.

Why leave them to sink into hopeless despair and never raise a finger to help them to do hetter in the future—in this life as well as the life to come? Has not the Master especially bid His followers to visit those in prison? He has, and those who obey His command find a special joy and satisfaction in ministering to such lost sheep and an ample reward in seeing lives remade, in peace and love shining out on the faces of those who formerly were sullen, resentful and evil, planning further deviltries and thus likely to become more an emence to society.

Can Become Salvationists

Can Become Salvationists

So convinced are the Army Officers engaged in this work of the genuineness of the converts made that they encourage them to become full fledged Salvation Army Soldiers. As the privilege of joining whatever religious body they choose there is no onjection at all to their becoming Salvationists. Thus there is in existence to-day in several of our Canadian prisons a Salvation Army Corpt. The privileges of the Soldiers are, of course, very restricted but they are pernatted to meet together for a flible Class once a week. They do not make a profession of religion or become Salvationists because they do not make a profession of religion or become Salvationists because they think it will shorten their sentence or secure for them better treatment than the rest. In fact they have to stand a lot of sneering from the irreligious and impenitent element as a result of their stand and their prison duties are made none the less onerous. But undoubtedly their lot, which at the best is hard, becomes more endurable because of the change of heart and spirit which has changed their outlook on life and given them an inward can par with all the others, the question of religious belief having nothing whatever to do with this aspect of their asse.

first visit to the Penitentiary.

The seven men to be enrolled were allowed to come forward to the platform and as they stood under the Army Flag the Colonel reminded them of what the Colors stood for and of what they had vowed in signing the Articles of War. He then exhorted them to be true and faithful and accepted them as Salvation Army Soldiers. Mrs. Miller presented each man with an illuminated copy of the Articles of War.

One of the new Soldiers then sang, in 2 very fine voice,

"I heard the voice of Jesus say,
Come unto Me and rest."

Come unto Me and rest."
Vocal solos were also rendered by Ensign Houghton and Captain Halsey.

A heart-to-heart talk from the Colonel followed in which he pointed out that lives spoiled by sin and ruined by indulgence could be made over anew through repentance and faith in

through repentance and faith in Christ.

Visibly Affected by Message

Many men were visibly affected by the Colonel's touching message and when Major Allen asked for a show of hands signifying acceptance of Christ seven men responded. For these special prayer was offered.

Warden Meighen was present at this Mecting and at the close he chatted for a short while with the Colonel, expressing his appreciation of the Army's endeavors. He values the Army's endeavors. He values to the Army's endeavors, and the strength of the Army's endeavors of old-time which is helping to counternet and overcome the influences of old-time habits and associations. The periodical visits made by the Officers and their personal and kindly contact with the men he regards as very valuable in elevating the tone of the which Institution and thus making the rask of the prison staff much easier. He fully realizes that the law can only go so far in reforming lawbreakers, and therefore a more compelling force is needed. That force is Divine grace and this is brought to bear through the Salvation Army and other devoted workers for the welfare of the prison ers. For this reason he welcomes the Army as a valuable factor in re-making wrecked characters, helping men to learn self control, kindling helpe in those who have given un hoping for any change for the better and creating conscience in moral delinquent who hardly know the effectione between right and wrong such a work is worthy of the best support of the best peeple and we are glad to enjoy the fullest confidence of the prison authorities in the manner in which the Army carries on this work.

Our next stop was Ahemethy for the weekend. We drove to the home of Brother and Sister Middleton, who made us right at home, and here we rested after a long, hard drive. While here the Chariot broke down, making it necessary for us to wait some considerable time, while it was being renaired.

We had a glorious Meeting with more than two hundred people listening and singing. We brought the claims of God very foreibly before the people, and there was much conviction, many singing with tears in their eyes. Brother and Sister Middleton and Brother Harold Middleton gave us very good assistance, and their kindness and hospitality were much appreciated.

Brother H. Middleton drove us to Balearres to our Meeting there, and then on to Melville, where we were met by Captain Sutherland. On our return to Abernethy the Chariot was ready for us to leave, so we travelled to Yorkton on Friday night. The next day was spent in advertising all over the town, and at night there was a great crowd.

Roblin was the next stop for the weekend. Here we had a wonderful time, with splendid Open-Air Meetings. On Sunday night we marched to the Auditorium for a monster indoor Meeting. Souls in this gathering were deeply moved and two hands were raised at the close, indicating a wish for our prayers.

How can the above be accomplished? It is very necessary that the Corps Officer and the Y.P. Sergeant-Major shall amounce Raily Day in such a manner that the entire neighborhood shall know about it, and extent the success or otherwise of the Raily will be in proportion to the publicity given to it in advance. Invitations should be sent to all parents, also to those whom we know to be interested in the Young People.

An entire week should be spent in visitation on behalf of the children. Not only should this be done by the Officers, but by every Y.P. Werker, and those who cannot visit in the day-time should do so in the evening.

Every Company attendant should be urged to bring one or more children with them for Raily Sunday.

A determined effort should be made

After actuating one of the Army Meetings my heart began to crave for something I could not give it. I wanted to rave into God for His mercy and pardon, but the atmosphere of my surroundings, and my fellow inmates seemed to hold me back. That was the real obstacle. I dreaded to be laughed and scoffed at. However, mumbling something in the form of a prayer, I was at last inspired by the Holy Spirit to move up to the Penitent Form. How my tears of remorse and sorrow did flow when I came to realise that I helped to place Christ on the Cross of Calvary What a thrill I had at that Mercy-Stat when God came into my heart! Captain Tobin and Lieut. On Wednesday, August 18, Adjutant Davies of the Training Garrison Staff was with, and conducted a special Meeting, which was a great blessing to us all. She gave the congregation an insight into the life of the Cadets in training. At the dose of a short Bible address two souls sought Christ at the Mercy-Seat, and claimed Salvation. Praise Good. In the winter of 1886, the Salvation Army came to Winniper. This was not Bob Smith's first introduction to the followers of the Yellow, Red and Blue Flag. for be had seen "the Army" at Senborough, in Yorkshire, and had formed a high impression of the sincerity of the Siddiers. His first glimpse of them in Winniper, however, was seeing a company of Salvationists kneeling in about a foot of snow in front of the City Hall. He passed on, but finally attended the Meetings. They interested him greatly, and, instead of going to Church on Sunday evenings as had been his regular wont, he made a pant of going to the Army. One night, after a Meeting, unusually powerful in its influence, he returned to his lodgings, went to bed but could not sleep. The Spirit of God had seized upon him, the became conscious of his need of Salvation and knew that this would mean the giving up of his seed of Salvation and knew that this would mean the giving up of his need of Salvation and knew that this would mean the giving up of his seed of salvation and knew that this would mean the giving up of his seed of salvation and knew that this would mean the giving up of his predictions. This entailed a big strugglebut the way for him was death; defined, and the next evening he desired, and the next evening he got gloriously saved. He sold "War are yes" on the streets and became a red hot seeker after others in need of Salvation.

Called to Officership

The time came when he felt the Call to become an Officer. Without demur he responded, made application, was accepted, and on August 8th, 1887, was instructed to proceed to Emerson, Man. with the rank of Cadet. For four months he labored in that place, and returned to Winnipeg for special Officers' Councils. The gatherings then held helped forward the work of illumination and he received a new touch. Long Live in Western Canada

MAJOR ROBERT SMITH will ever to the solidery buoyed him by the state of the Army's most faithful and logal phoners. For eighteen years he devoted himself to the glorious and sared task of winning the Natives of Alaska and British Columbia to Christ.

One of a family of nine, Bob Smith was born at Slingsby, Yorkshire, England Completing his school course at the age of fourteen years his parents desired him to become a carpenter, but he had a preference for farming, and ultimately secured their consent to engage in that pursuit. Although brought up to attende the English Church, after leaving home he attended the Methodist Church with some degree of regularity, and, notwithstanding the fact that he had no definite knowledge of conversion, he knew it was right to love God and endeavored to play straight in all things. It is of more than passing interest to record that when he was a mere lad he was possessed of a longing to take the glad news of the Gospel to the natives of the Pacific Cress! How remarkably this longing was fulfilled will have been gathered from the statement made above.

So, with two of his hrothers, sailed for Canada in 1882, and landed in Halfas on May 6th. He worth straight on to Winnipeg, and after ten days of difficult traveling, reached the city. The Red River was in llood, with water about two inches below the Louise Bridge. His rist joh brought him two American silver delivers and the properties of the pacific Cress and the content of the content

night in prayer-and praise.

Prayer-Meeting in Hotel

Next morning with two sleigh-loads of Soldiers he left for Minnedosa to participate in the first anniversary Meetings held by the D.O. When they pulled up at Rapid City to rest their horses and get some refreshment for themselves, they turned the sitting room of the hotel into a Meeting room and held a Prayer-Meeting. That same night, at Minnedosa, a memorable service was held. The D.O. and another Officer journeyed to Neepawa at nine o'clock and left Smith and another young blood to "carry on." A wonderful break occurred! People commenced to cry for mercy in all parts of the Hall and a great work of Salvation was accomplished.

In October, 1888, Lieutenant Bob was appointed to New Westminster, B.C. The Corps had not heen upened very long, and two girl Officers who had pioneered the work had been very successful and were much loved. The folks there soon made it plain that they did not want men Officers. But the men, undaunted, went there to stay, and stay they did! They had a pretty rough passage, however, and for a time lived on bread and water, but things eventually changed until they could not eat all the good things which were showered upon them. They visited and prayed with the proyle, the Hall was packed and men and women got converted. A millionaire got saved one Sunday afternoon. The boat had docked from Victoria, and as the passengers were transferring for Vancouver, he stepped into a Meeting which was being conducted by the old Welsh minstrel, S. C. Griffiths, got gloriously saved and hecame a great help to the Salvation Army.

Then came six years on the prairies, both in Manitoba and the Dakotas, where he was privileged to plant the Flag in Jamestown. Valley City and Minot. He also spent nearly two years as Secretary of the Young People's Work, and, while in charge of the Regina District, a wire came from Colonel Jacobs asking if he would go to the Indian work on the North British Columbia coast. He wired back without any hestitation. "I am a Soldier," and for the next eighteen years lived and worked for the native people. It was up north that he was married, and where Mrs. Smith for fifteen years shared with him the loneliness and hardships associated with such a difficult missionary enterprise.

A Tribute from an Old Comrade

Robert Smith is gone. Thirty-nine years ago he was a Cadet in Brandon, where I first knew him. How loyal and whole-hearted he was! We have been close friends all through the years. He maintained that simple faith to the last. How often I have heard him sing, "I cannot leave the dear old Flag." He never looked back, never was out of the harness. His spirit, his influence, his constant labor greatly helped to lay the foundation of the Army work in Canada West.

Another warrior gone. Yes, he

Another warrior gone. Yes, he rests from his labors, and his works will follow him. Gone to hear the "Well done," after a life of patient continuance in well doing. The memory of the just is blessed. Home gleams through our tears as we remember his words of encouragement. He has just gone on before. In the morning we shall see him again. On the Army's Roll of Honor we inscribe the name, Robert Smith.—Thos Me-Gill, Envoy.

Major Maggie Andrew (Sena Bai) was commissioned by Commander Eva Booth in the year 1903, and after two or three appointments in Canada East, a wire was received one day containing the brief message: "Are you willing to go to the Klondyke?"

appointments in Canada East, a wire was received one day containing the brief message: "Are you willing to go to the Klondyke?"

The journey to the new appointment involved four days by steamer up the Pacific Coast, a day in the train and then four days by steamer up the Pacific Coast, a day in the train and then four days journey up the Yukon River.

For two years the Major and her assistant kept the Army Flag flying in that inhospitable region. Not many people have Irnown the thermometer to range between 50 and 75 degrees below zero for three weeks on end, but such was their experience during one part of their stay. The only women to be seen on the streets at such times were their two selves. Frequently they walked ten miles down the creek, held a Mesting and returned they allowed the weather to interfere with their program. They never had too much sun though they had his company for their stay. The control of their stay is the summer of the sun though they had his company for their stay. The summer had so much sun though they had his company for their stay. Appointments in different parts of the Dominion of Camada followed, including St. John, N.B.; Leatheridge, Alta:, Prince Albert, Sask. In Lethhridge, the Major was the spiritual adviser of a man who was to be left to the scaffold, and was the means of bringing hope into his heart where there was none, and light into his life which was full of darkness. At Prince Albert she had the privilege and great joy of leading a young woman to Christ who had been sentenced to ten years in the Penitentiary. It was reported that this young woman's life was so changed that there was a very much so that after she had served four years in that Penitentiary she was released.

years in that Pententiary she was released.
While stationed at Swift Current she
volunteered for work among the lepers
of Java. However, the Lord had other
plans for her, and finally she was accepted
to service in India.

Her first appointment on arrival was to
the Satiara Division, at a time when there
was an outbreak of a plague and the
people were dying by scores every day.

Appointments at Simla and Bombay
followed and then the Major was sent
to take charge of the Nadiad District
in Gujerat.

Two years ago she came back to Canada on furlough and, at the Congress gatherings in Winnipeg conducted by the General, made most earnest pleas on behalf of India's millions. She went back to her work in India with joyful anticipations of many more years of service among the people she loved. But God has now called her to her reward in Heaven.

On Friday, August 13, we had a visit from Staff-Captain Tutte, our Divisional Commander. The Meeting was the first to be held in the new building which we are now occupying, and was something in the nature of an opening service. The Staff-Captain dedicated the daughter of Brother and Sister Hieks. We are glad to report that two souls came to the Mercy-Seat, and this despite the fact that the crowds were small, owing to the visit being more or less a surprise, and this despite the fact that the crowds were small, owing to the visit being more or less a surprise, and following this are interesting program, arranged by Mrs. Ensign Moll and presided over by Staff-Captain Tutte. Everyone was surprised and delighted to see Sister Mrs. Holines in

and answered prayer on her behalf.

We shall be glad to have Captain

her, and hope that her furlough will
do her much good.

Captain Largford and Lieut. Young-We have welcomed most of our Soldiers back from their holidays, and are now going forward to victory. On Sunday, August 15th, we had a splendid day. Treasurer Mrs. Toepfer led the Holiness Meeting, and her address was most enjoyable. In the Salvation Meeting we had a blessed time. Owing to the absence of the Captain, on Turlough, Lieutenant Young had the pleasure of presenting to Corps Secretary Mrs. Ehy a Long Service Badge for ten years' unbroken service as Local Officer. Sister Mrs. Eby has held all the important Local Officers positions in the Corps, and we certainly appreciate her labors. The Calling of Elizabeth

Being the Autobiography of a Canadian Woman Officer

Chapter XII

A LTHO GH Elizabeth was twenty year of age, she was in some respects very innivent. Her life had been a shettered one. Her parents had not taked so much to their children, yet no eagle watched over its young with greater filigence than did they, consequently Elizabeth felt she was but a child often when she should have had the knowledge and confidence of a woman.

On the night when Elizabeth had such a struggle, one of the three seekers was a young man. He was a quiet, neatiy-dressed, dignified looking fellow and the Officers and Soldiers hoped he would make a successful Soldier of the Corps. As was her custom Elizabeth encouraged him to presevere in all that was holy, but gave him no more attention than others. One Sunday evening a little later, he seemed not wholly satisfied with his experience and he came forward again. Elizabeth did not speak to him until the close of the Meeting and then, as she shook hands with others she shook hands with him of she she would indicate he felt he should be a Salvation Soldier.

"Oh, I'm very glad to hear it," she said warmly. "Go straight ahead and God bless you." and again shaking his hand she left him.

For some time afterwards he seemed to be very happy, and all unconscious of what was in his mind Elizabeth was glad he was getting on well. She saw him in the Meetings, but apart from that met him only occasionally upon the street.

the store when he said nervously. "Well

Lieutenant, you have only to man-day."

Elizabeth looked at him in astonish-ment. It was impossible to mistake his meaning this time, but she said, "What day?"

"Ger married?" he reiterated. "But I don't want to get married." he "But you promised you would," he said.

"And could not I also become an officer?" he queried.
"That all depends on whether the Lord calls you."
And seizing her Bible she left him and went away to re-read a portion for the Meeting about to commence, and Charlie left the Hall not to return again that evening.
When at the close of the Meeting, the Captain and she made their way to the had not remained to the Meeting, and

"Well, Lieut., you have only to name the day," he said nervously

"No 1 did not. When?" And not till some time after did she remember the words he had misconstrued into a promise. "No 1000 he did not wish to hurt his your." She did not wish to hurt his prog. "So she said guardedly, "Well, God called me to be an Officer." "Surpose of the words words had not wish to hurt his prog. "So she said guardedly, "Well, God called me to be an Officer."

when she learned the reason, Elizabeth was surprised that to the Captain it was no surprise. Nevertheless she was exceedingly sorry it had happened and for a while it affected her peace of mind when he was in a Moeting and also the fear of troubled her. But it was only for a before time, for shortly afterwards orders came to farewell and proceed to another appointment.

Elizabeth worked along steadily from Corps to Corps for several years, gradually people, Corps and Captains. But it is overcoming her nervousness, gaining con-

In less than two years the Territorial Secretary, as he was known then. Colonel J. E. Margetts, wrote informing her that the Commissioner, then Commander Eva Booth, had decided to promote her to the Staff, with the rank of Ensign, her Divisional Commander to be Brigadier Southall. This was followed by her appointment to Petrolea Corps and district, comprising four smaller Corps with Petrolea as a centre. She arrived with her assistant, Captain Jennie Coe on the last night if the year 1897 and her first Meeting was the watchnight service.

In the "Oil City"

the year 1897 and her first Meeting was the watchnight service.

In the "Oil City"

She was exceedingly happy in the "Oil City" as it was then known. Oil wells abounded everywhere, the pumps ceaselessly creaking as they worked, and oil ran in some of the streets. But there was life and business and prosperity and the Army was in the hum of things in general. A revival broke out in the Corps and many precious souls were won for God and the Salvation Army, many of whom are now in the Glory land. Oil continued the Salvation Army, many of whom are now in the Glory land. Oil continued the Salvation Army, many of whom are now in the Glory land. On the day previous, which was Sunday, Elizabeth with the Captain had worked very hard and it had been a blessed and successful day. Monday found her exceedingly warry. However, she decided she would walk to a refinery about a mile distant and ask the manager and owner to donate the Army a barrel of oil for the lamps with which the Hall was lighted. When she saw the gentleman he allowed her to stand by the counter in the large outer office in the presence of several clerks while she made her appeal. Finding herself at bay she spoke clearly, and audibly before all. He asked for some rude insinuating questions as to the necessity for lighting the Hall. These Elizabeth pretended hat to understand, and reiterated that "We need lamps to light our Hall for soul-saving Meetings." However, he, in an insulting manner, refused, and walking with head erect and cheeks affame she left the office. As she retraced her steps along the narrow greasy planks she mused, "Tm so weary, I could drop." It not strange that the Lord allowed me to take this trip just for failure. But, there, the knows all things. I can't understand, He does." In the afternoon the two Officers went visiting in an opposite direction of the refinery which she had it that the counter of the prevention of the great tanks owned they this retated chemically. For hours it burned until thousands of rallons of oil were destroyed.

and that the Salvation Army Officer in the courts is as welcome as he is familiar. Before our interview concluded, the Colonel handed to us for scrutiny a letter scit under date of April 12, 1926, from one of our Prison Officers of Canada West. The following is an extract from it:

"Last Thursday morning I was called upon to attend a sitting of the Appeal Court. A sitting of the court had been adjourned until I could be secured and brought into attendance, in order that a prisoner might be turned over to my charge.

charge.
"It appears that the jury had suggested to the Chief Justice that they should get into touch with the Attorney-General, to see if he would be willing to place the prisoner in my care. When the Attorney-General found out that this was the suggestion of the jury, he immediately agreed, via the long-distance telephone, and I was accordingly sent for

"In turning the young man over to me, his lordship spoke very highly of the work of the Army, for which I thanked him, and his statements were agreed to by the jurymen, and they stated that it would be better for me to report to the police for the young man, rather than have him report direct, as that would have the medical to make him a 'marked' man.' So runs the story related to us by the Colonel, who labors together with the Social Officers in Canada East and in other lands amid the broken columns of the masonry of life. They, with God's power and help, reconstruct and make anew many who met with breakage and disaster in the bad old days of their God-forgetting past, and who, having come into contact with the Army's messengers of Love and Hope and Mercy, are now building upon the sure founds. are now building upon the sure founda-tion of Christ, the Great Mender of the weary, the wayward, and the broken hearted.

By ADJUTANT T. MUNDY

It is good to sit with one's memory the purchasing of it was the difficulty, in the stillness of a summer's evening A few days afterwards found the and recall the pleasant incidents in the life of a departed Comrade. So it at Calgary and in spite of his offer happened when I heard of the promotion to Glory of Commandant bryenton I began to live again the happy meetings and associations with this of the sake of the Kingdom woman who was the embodiment of all that was good and Christilke. Surely she was a "virtuous woman—her price far above rubies."

The first scene which came flooding into my thoughts was at an Officers' Council in the fall of 1916. There I first met this woman of whom I had heard so much, and shall I not say, whose influence had long since reached me and helpode me during those few months of Officership. For it was she who had passed through the Crowe' Nest Pass a few weeks before Captain Acton and I arrived at Coleman to open fire, and on every hand we heard praiseworthy reports of "a good lady" who had visited the home or gathered the little children together on the street and taught them some Army chorus. From town to town the had traveiled on her financial work and left such a trail of blessing behind that our work, as far as the introduction was concerned, was made comparatively easy.

Again memory helped me to recall an incident yet unrecorded in Army bistory in the West. It was an outstanding incident of answer to praver. We had plans on foot to build an Army Hall in Coleman and the Commandant was sent to assist us in the animal particular to make a granted, and much to his surprise and the prayed of money. A few miles east of Coleman stood an unused building belonging to Mr. Pat Burns of Calgary. It was decided that the lumber of penithents.

Last, but not least-by a long chalk, one hundred and six delighted children and mothers left Winnipeg for the Army's Fresh-Air Camp, Sandy Hook, on Saturday last to spend, as guests of the Army, a week's holiday before the Camp closes for the season. The last but one "batch" which returned on the same date will doubtless dream of the many pleasures de-rived from "the finest Camp on Lake Winnipeg" as someone put it, for many a day to come.

Could any of the friends who contributed towards the Fresh-Air Fund have seen any of the five hundred odd poor children and deserving mothers on their return from the lakeside they would certainly have congratulated themselves on making so good an investment.

Ensign Fletcher. The Salvation War in Trail is going ahead well, and our officer and Soldiers are doing their best to win souls for God. On Thursday, August 12th, we were privileged and very pleased to have with us Adjutant Davies of Winnipeg (Specials are always heartily welcomed at Trail!) The afternoon was given over to visitation and a most interesting time was spent in this way, both by the Adjutant, and also those visited. Preceding the indoor Meeting, a splendid Open-Air was held on the mean street. The people througed uround to listen to the songs and testimories and afterwards many followed into the Hall where a bright Salvat on Meeting was held. On this occu in we were pleased to have Capacin Mason and Lieutenant Thompson, ind a number of Comrades from Reland. Adjutant Davies spoke on the Training Garrison Work, her add a seeing enjoyed immensely. Capt in Mason led the Prayer-Meeting.

The following Sunday, just as were closing the Salvation Meeting a young man came forward for Salvation.—F.C.
